We're looking for Appointments Advisory Committee Members

Play an important role in welcoming new adults

We are looking for **Adults (18+)** that can help with the Appointment process in our area. Scouters, former scouters and other community members can apply.

If you're scouter you have probably met with an Appointment Panel when you applied. You could be part of that team of people that play an important part of welcoming new adults into Scouting.

You may only be required a few times per year, so even if you are very busy, this could be for you.

This is a very important role, training and guidance will be provided, and **must** be undertaken. Appointment to the panel is subject to approval by the Area Executive.

If you're interested then please email scouts@garethwatson.com with the following:
